

## Product Redesigned Bulletin

The Snow Defender<sup>®</sup> 85RF DECO™ has been redesigned, with a wider saddle, that allows easier installation with more S-5! Clamps<sup>®</sup>. The new saddle's opening is 2.125" I.D. (the old design had an opening of 1.625" I.D.). Additionally, the slot opening for attaching the 8mm bolt was lengthened from .625" I.D. to approximately 1.125". This allows greater flexibility for the bolt to align with the pre-drilled holes of the S-5! Clamps.

The new 85RF design will work with the following S-5! Clamps: S-5 N Grip, S-5 N 1.5, S-5 NH1.5, S-5 H-90, S-5 S, S-5 V, S-5 U, **\*S-5 Z\***, **\*S-5 T\***.
