

Hardy Board & Batten Steel Siding

Enhance the look of your home with our steel board and batten panels. Not only will these panels give your house a modern aesthetic appeal, but they are also incredibly durable and long-lasting. Up your home's curb appeal with our steel board and batten panels. The Hardy Board and Batten panel is not just about aesthetics; it's about providing the best quality steel for your construction needs. Don't compromise on your project; choose Hardy Board and Batten panel for a sleek, sturdy, and reliable finish. Made from the same colors available in our 29 gauge Hardy Rib or 26 gauge Hardy Standing Seam panels, you can be assured the Hardy Board and Batten panel will match your other products ordered from Mid Michigan Metal Sales. The Hardy Board and Batten panel allows you to continue to use steel to protect your house or building from harsh weather. The Hardy B&B panel is most commonly used as siding but can also be used as an interior liner option, which gives you that finished and complete look for your project.
